

# City & Guilds KS5 Technical Qualifications

## Employer Involvement Planner and Tracker

This tracker can be used to capture how your centre has met the employer involvement requirements for a Technical Qualification. This is to be uploaded to the Moderation Portal, along with a representative sample of evidence of the below activities having taken place.

The deadline for the submission of this can be found within the **Welcome Pack** and checklist for delivery, which are published on our website each academic year and can be found on the [resources and support page for Technical Qualifications](#).

We recommend that centres use this document on an ongoing basis throughout the year to track and record evidence of meaningful Employer Involvement activities.

One planner should be uploaded to the Moderation Portal for **each qualification** that is being delivered.

You may detail up to six activities on this document, but if you wish to provide information around any further Employer Involvement activities, please provide an additional attachment.
